**DESCRIPTION**

**REVIEWS**

### Features:

- The rotation sensor is made of fine material,durable and has long service life.
- The sensor can detect both continuous electric and mechanical angle .
- Wide range of working temperature ,the sensor can work normally between -40~85°C.
- Small size and light weight,portable and convenient to carry.
- The installation is easy ,you just need to paste it on the surface.

### Parameters:

- Rotation Angle: Electric/Mechanical 0~333.3°,continuous
- Linear Range: Output analog voltage
- Output Signal: Actuator Type Hole for Shaft
- Linearity: ±2%
- Resistance (Ohms):10k
- Resistance Tolerance: ±30%
- Mounting Type : Surface mount
- Operating Temperature: -40°C ~ 85°C

- Size: 15 x 18mm/0.59 x 0.71in
- Color: Purple
